Commodity list

PREFACE

The Commodity List for external trade statistics which is separately published, will be enclosed the publication External Trade, Vol. I, and the January issue of the Monthly Bulletin of External Trade. The Commodity List follows the nomenclature of the Norwegian Customs Tariff, which is based on the Customs Cooperation Council Nomenclature (CCCN).

When working out the nomenclature it is also taken account of the Standard International Trade Classification, Revision 2 (SITC Rev. 2) and the Joint Nordic Commodity Classification for Economic Statistics.

Central Bureau of Statistics, Oslo, 9 January 1986

Arne Øien

Leif Skaug

1. Amendments to the Commodity List, as from 1 January 1986	123

1. PURPOSE

The purpose of the external trade statistics is to give information about the commodity flows between Norway and other countries. The statistics intend, as far as possible, to meet the demands from industry or trade for data in their planning of production, sales and marketing activities. In addition, the statistics make an important part of the data basis for prognoses and analyses performed by private organizations, public authorities, research institutions etc. International organizations, like UN Statistical Office, and others, make an extensive use of information from the external trade data, as supplied by the individual countries. The statistics form integrating parts of the national and international statistical systems and are also utilized for the preparing of national accounts and balance of payments statistics. Accordingly, internationally adopted definitions as well as standards of commodity and country classifications are of great importance.

2. COVERAGE

The coverage of the statistics is in the main in accordance with the recommendations of the United Nations Statistical Commission.

From 1959 the foreign trade statistics relate to general trade. The general trade system was also used prior to 1939 while the special trade system was used in the period 1939-1958. The main difference between the two systems is the different treatment of goods in bonded warehouses. During 1939-1958 only imports for consumption or processing were recorded. Re-exports from the warehouses were excluded from the export statistics. From 1959, as in the years prior to 1939, all foreign goods passing through bonded warehouses are, with certain exceptions, included in the statistics. Except in the case of tobacco, beverages and certain other provisions the change from special to general trade does not influence the comparability of the present statistics with those for the period 1939-1958. During the period 1939-1958 indirect imports were recorded at the time of customs clearance. From 1959, these imports are recorded when the goods enter the warehouses. However, certain categories of motor vehicles placed in bonded warehouses were in the period 1959-1975 recorded when customs cleared. As from 1976 these vehicles are as other goods recorded when they enter the warehouses. No change was made in the method of recording goods imported directly for use.

Imports statistics thus comprise commodities cleared on arrival and commodities placed in customs bonded warehouses. Information about imports directly for permanent constructions on the Norwegian continental shelf are collected from the operating companies. Data on these imports are, however, not published in the external trade statistics, but estimates for these imports are included in the balance of current account. Imports for use at the continental shelf, first cleared by the customs at a port of entry, are recorded as other goods. Unstabilized crude oil is transported by pipeline from Norwegian area to United Kingdom where it is processed into stabilized crude oil and NGL components. Partially these products are imported to Norway and in the statistics recorded as imports from the United Kingdom.

The following categories of imports are not included in the statistics:

- a) Direct transit trade
- b) The catch outside the territorial waters of fishing expeditions under the Norwegian flag
- c) Returned merchandise (claims etc.) and returned packing material
- d) Indemnifications
- e) Merchandise for repair in Norway on foreign account
- f) Merchandise returned after repair abroad on Norwegian account
- g) Goods on loan
- h) Goods valued at less than 1 000 Norwegian kroner
- i) Personal luggage and belongings; removable articles imported on transfer of residence
- j) Goods imported for the Crown and for the diplomatic corps
- k) Supplies under military defence agreements

- l) Commercial samples, advertising material, gifts etc. of negligible value
- m) Monetary gold
- n) Current coin; unused Norwegian postage, revenue and similar stamps of current or new issue; stamp-impressed paper; bank notes, stock, share and bond certificates and similar documents of title; cheque books
- o) Bunkers
- p) Temporary importation of goods according to international conventions and recommendations (professional equipment, transport equipment in international traffic, containers, pallets and packing materials, broadcasting and television equipment for use to transmit material to abroad or to record material, goods for display or use at exhibitions, fairs, meetings and similar events, instruments and apparatus for scientific research, welfare material for seafarers)

Export statistics comprise all merchandise exported from Norway, included re-exports of imported goods, whether or not the exports and re-exports are from customs bonded warehouses. Also included are fish and other produce of the sea landed abroad by Norwegian fishing vessels. Crude oil and natural gas shipped directly from the Norwegian continental shelf are also included. As from October 1975 and 1980 crude oil from the Norwegian part of the continental shelf is transported by pipeline to Teesside and Sullom Voe, respectively. In the statistics this oil is wholly recorded as crude oil exported to the United Kingdom. The Norwegian Petroleum Directorate reports monthly quantity figures for gas exports from the Norwegian part of the North Sea to United Kingdom and the Federal Republic of Germany (FRG). Equipment manufactured or processed in Norway for ships and aircraft built abroad on Norwegian account is included in the export statistics. When imported, the ships and aircraft are recorded at full values.

The following categories of exports are not included in the statistics:

- a) Direct transit trade
- b) Commodities from customs warehouses
- c) Consignments of goods from Norway to Svalbard or Jan Mayen Island
- d) Temporary exportation of goods (goods for display or use at exhibitions, for scientific research, goods on loan, professional equipment, transport equipment in international traffic, containers, broadcasting and television equipment etc.) to be used for not more than twelve months abroad and goods returned after corresponding use in Norway
- e) Returned merchandise (claims, free repair in Norway, free indemnifications from Norway, free repair abroad for re-imports to Norway)
- f) Equipment and other supplies delivered to Norwegian ships, oil platforms or aircraft in foreign trade
- g) Merchandise for repair abroad on Norwegian account, later being re-imported
- h) Merchandise returned after repair in Norway on foreign account
- i) Returned packing material
- j) Personal luggage and belongings etc.
- k) Goods for own use by Norwegian diplomatic corps
- l) Supplies under military defence agreements
- m) Commercial samples, advertising material etc. of negligible value
- n) Consignments valued at less than 2000 Norwegian kroner.
- o) Provisions, bunkers and equipment delivered to Norwegian or foreign ships and aircraft in Norwegian harbour
- p) Monetary gold
- q) Current coin; unused postage, revenue and similar stamps of current issue in the country to which they are destined; stamp-impressed paper; bank notes, stock, share and bond certificates and similar documents of title; cheque books

Beginning 1948 processing and repair trade are included in the statistics at full value. As from 1972 the repair trade is excluded from the statistics (see Volume II).

3. SOURCE MATERIAL

The external trade statistics are based on information collected by the Customs authorities in conjunction with imports and exports of goods. For the preparation of the data, the Central Bureau of Statistics receives from the Customs copies of the commodity declaration forms filled in by importers and exporters, respectively. Information on imports and exports of special equipment, i.a. ships, electric current and imports or exports falling outside the Custom's area, like equipment imported directly to the Norwegian part of the continental shelf or crude oil and natural gas, exported by pipeline from the shelf, are based on special questionnaires. Complete figures for imports directly to the Norwegian part of the continental shelf are, however, not available. The Norwegian Petroleum Directorate reports since October 1975, monthly the quantity of oil exported from the oil fields in the North Sea. The same authority monthly also submits reports on the quantities of gas exported by pipeline to St. Fergus and Emden.

4. DEFINITIONS

4.1. Commodity classification

For the years 1939 - 1952 the commodity classification was based on the Minimum List of Commodities for International Trade Statistics prepared by the League of Nations Committee of Statistical Experts. From 1953 the commodity classification is based on the Standard International Trade Classification (SITC) of the United Nations. From 1961 - 1975 the classification is based on SITC, Rev., and from 1976 on SITC, Rev. 2 (see Statistical Papers, Series M, No. 34).

As from 1959 the commodity classification is based on the 4-digit Customs Co-operation Council Nomenclature (CCCN). The two following digits correspond mainly to a joint Nordic commodity classification list and the last digit represents a national breakdown. The commodity list is printed separately in Norwegian and in the English language but is also incorporated in the customs tariff. In External Trade, Volume I, the commodities are grouped according to this list.

In External Trade, Volume II, the Standard International Trade Classification (SITC) is used as the classification system.

4.2. Quantities

Net weight is used in the tables except for imported goods where the duty is calculated according to the Customs Tariff of the weight of the goods including their packings (for example canned goods). The Customs Tariff also shows the commodity items which in addition to kilogrammes are registered in other quantity units.

Quantity units used in the tables: STK. = number or heads, KG = kilogrammes, Tonn = metric tons, 1 000 l = 1 000 litres, KUB.M. = cubic metres, DUS.PAR = Dozens of pairs, PAR = pair, BR.T. = gross tons, KVM = square metres, 1 000 KUB.M. = 1 000 cubic metres.

4.3. Valuation

The value of the imports represents the c.i.f. value, and the value of the exports represents the f.o.b. value, at Norwegian port or land boundary. The value of oil produced on the Norwegian part of the continental shelf and further exported is among others calculated on the basis of norm prices determined administratively, adjusted for the transport and terminal costs. As to natural gas norm prices or other direct reports of values are not available. For that reason the prices to which gas is exported by pipeline to St. Fergus and Emden, these are preliminarily estimated by the Central Bureau of Statistics on the basis of other sources, even on data found in the official import statistics of the two countries and published reports on transport costs for natural gas and estimates on terminal costs.

4.4. Geographical classification

In all tables with country distribution imported commodities are grouped by country of production and exported commodities by country of destination. In External Trade, Volume II, table 18 imports are grouped by country of production as well as by country of consignment, and exports by country of destination.

The following definitions are used:

C o u n t r y o f p r o d u c t i o n or origin is for crude materials defined as the country where the goods are produced, and for manufactured goods, including refined products, as the country of final processing, not counting re-packing, sorting and blending (except blending of tea). As from 1972 the country of production for assembled vehicles is the country where the vehicles have been assembled.

C o u n t r y o f c o n s i g n m e n t is defined as the country from which the goods are shipped to Norway without any commercial transaction intervening (transshipment not counting).

C o u n t r y o f d e s t i n a t i o n is defined as the country which at the time of exportation is the last known country to which the goods are shipped, directly or through other countries, without any commercial transaction intervening (transshipment not counting).

The countries' code has three digits. The first digit on the left indicates the continent.

COMMODITY LIST FOR EXTERNAL TRADE STATISTICS

No.	SITC	No.	SITC
CHAPTER 73		73.09	<i>Universal plates of iron or steel:</i>
IRON AND STEEL AND ARTICLES THEREOF			Of a width more than 500 mm:
73.01	<i>Pig iron, cast iron and spiegeleisen, in pigs, blocks, lumps and similar forms:</i>	002	- Certified for ships 674.14
		004	- Other "
		005	Of a width 500 mm or less:
		008	- Certified for ships "
			- Other "
100	Pig iron and cast iron 671.20	73.10	<i>Bars and rods (including wire rod), of iron or steel, hot-rolled, forged, extruded, cold-formed or cold-finished (including precision-made); hollow mining drill steel:</i>
500	Spiegeleisen "		Forged, but not further worked:
73.02	<i>Ferro-alloys:</i>		- Bars and rods (except wire rod); flat bars (not falling within heading No. 73.12) more than 3 mm thick and less than 150 mm wide; other steel of which the largest dimension of the cross-section is more than 10 mm 673.27
	<i>Ferro-manganese:</i>	101	- Other "
101	- Containing more than 2 per cent by weight of carbon 671.61		Hot-rolled or extruded, but not further worked:
109	- Other "		- Wire rod of which the largest dimension of the cross-section measures:
200	Ferro-silicon ¹⁾ 671.62	111	- - More than 10 mm 673.11
300	Ferro-silico-manganese 671.69	119	- - 10 mm or less "
401	Ferro-chromium "	120	- Concrete reinforcing bars:
402	Ferro-silico-chromium "	130	- - Deformed reinforcing bars 673.26
500	Ferro-titanium "	150	- - Other reinforcing bars "
600	Ferro-tungsten "		- Hollow mining drill steel 673.27
700	Ferro-molybdenum "		- Flat bars (not falling within heading No. 73.12):
800	Ferro-vanadium "	109	- - More than 3 mm thick and less than 150 mm wide 673.26
900	other "	291	- - Other "
73.03	<i>Waste and scrap metal of iron or steel:</i>	292	- Round bars "
		293	- Square bars of which the largest dimension of the cross-section measures:
100	Scrap and waste metal of cast iron 282.01	294	- - More than 10 mm "
800	Of alloy steel 282.02	295	- - 10 mm or less "
	<i>Other:</i>		- Other bars of which the largest dimension of the cross-section measures:
901	- Steel shavings 282.09	296	- - More than 10 mm "
902	- Waste metal, of tinsplate "	299	- - 10 mm or less "
909	- Other scrap and waste metal "		Cold-formed or cold-finished (including precision-made), but not further worked:
73.04	<i>Shot and angular grit, of iron or steel, whether or not graded; wire pellets of iron or steel:</i>		- Flat bars (not falling within heading No. 73.12):
		301	- - More than 3 mm thick and less than 150 mm wide 673.27
001	Wire pellets 671.31	302	- - Other "
009	Other "	303	- Round bars:
73.05	<i>Iron or steel powders; sponge iron or steel:</i>	304	- - Bright "
		305	- - For pre-stressed concrete "
100	Iron and steel powders 671.32		- - Other round bars "
500	Sponge iron or steel 671.33		- Other bars:
73.06	<i>Puddled bars and pilings; ingots, blocks, lumps and similar forms, of iron or steel:</i>	306	- - Bright, of which the largest dimension of the cross-section measures:
		307	- - - More than 10 mm "
600	Ingots 672.41		- - - 10 mm or less "
700	Other 672.45		
73.07	<i>Blooms, billets, slabs and sheet bars (including tinsplate bars), of iron or steel; pieces roughly shaped by forging, of iron or steel:</i>		
101	Blooms and billets 672.51		
102	Slabs and sheet bars "		
500	Pieces roughly shaped by forging "		
73.08.000	<i>Iron or steel coils for re-rolling 672.71</i>		

1) Quantity to be reported both in weight of shipment and calculated to 75 per cent Si-content.

COMMODITY LIST FOR EXTERNAL TRADE STATISTICS

No.	SITC	No.	SITC
	Blooms, billets, slabs and sheet bars:		- Of stainless or heat-resisting steel:
220	- Of high carbon steel 672.52	924	- - In coils 677.04
240	- Of stainless or heat-resisting steel 672.54	928	- - Other "
250	- Of other alloy steel 672.55	934	- Of other alloy steel:
	Pieces roughly shaped by forging:	938	- - In coils 677.05
260	- Of high carbon steel 672.52		- - Other "
270	- Of stainless or heat-resisting steel 672.54	73.16	<i>Railway and tramway track construction material of iron or steel, the following: rails, check-rails, switch blades, crossings (or frogs), crossing pieces, point rods, rack rails, sleepers, fish-plates, chairs, chair wedges, sole plates (base plates), rail clips, bedplates, ties and other material specialized for joining or fixing rails:</i>
280	- Of other alloy steel 672.55		
310	Coils for re-rolling:		
320	- Of high carbon steel 672.72		
330	- Of stainless or heat-resisting steel 672.74		
340	- Of other alloy steel 672.75		
	Universal plates 674.15		
	Wire rod:		
350	- Of high carbon steel 673.12		
360	- Of stainless or heat-resisting steel 673.14	100	Rails 676.01
370	- Of other alloy steel 673.15	901	Switch blades, sleepers, fishplates, sole plates, bed plates and ties 676.02
	Bars and rods, hollow mining drill steel:	909	Other "
380	- Of high carbon steel 673.22		
390	- Of stainless or heat-resisting steel 673.24	73.17	<i>Tubes and pipes, of cast iron:</i>
400	- Of other alloy steel 673.25	001	Finned pipes 678.10
	Angles, shapes and sections:	002	Soil pipes "
470	- Of high carbon steel 673.37	009	Other "
	- Of stainless or heat-resisting steel:		
481	- - Hot-rolled, stainless 673.38		
489	- - Other "		
500	- Of other alloy steel 673.39		
	Hoop and strip:		
510	- Electrotechnical hoop and strip 675.05	100	Blanks for tubes and pipes 678.20
	- Other:		Tubes and pipes, seamless, not of stainless or heat-resisting steel:
550	- - Of high carbon steel 675.02		- Of a wall thickness of more than 1.8 mm:
560	- - Of stainless or heat-resisting steel 675.04	210	- - Threaded "
590	- - Of other alloy steel 675.05		- - Other:
	- Sheets and plates:	220	- - - Hollow profiles "
710	- Electrotechnical plates 674.94	230	- - - Other "
	- Other:	250	- Of a wall thickness of not more than 1.8 mm "
	- - Rolled:		Tubes and pipes, seamless, of stainless or heat-resisting steel:
	- - - Of a thickness of 4.76 mm or more:		- Of a wall thickness of more than 1.8 mm:
720	- - - - Of high carbon steel 674.42		- - Hollow profiles "
730	- - - - Of stainless or heat-resisting steel 674.43	260	- - Other "
740	- - - - Of other alloy steel 674.44	270	- Of a wall thickness of not more than 1.8 mm "
	- - - - Of a thickness of from 3 to 4.75 mm inclusive:	290	Tubes and pipes, welded, not of stainless or heat-resisting steel:
750	- - - - Of high carbon steel 674.52		- Of a wall thickness of more than 1.8 mm:
760	- - - - Of stainless or heat-resisting steel 674.53	510	- - Threaded 678.30
770	- - - - Of other alloy steel 674.54		- - Other:
	- - - - Of a thickness of less than 3 mm:	520	- - - Hollow profiles "
810	- - - - Of high carbon steel 674.62	530	- - - Other "
820	- - - - Of stainless or heat-resisting steel 674.63	550	- Of a wall thickness of not more than 1.8 mm "
830	- - - - Of other alloy steel 674.64		Tubes and pipes, welded, of stainless or heat-resisting steel:
	- - Other:		- Of a wall thickness more than 1.8 mm:
840	- - - Of high carbon steel 674.92	560	- - Hollow profiles "
850	- - - Of stainless or heat-resisting steel 674.93	570	- - Other "
860	- - - Of other alloy steel 674.94	590	- Of a wall thickness of more than 1.8 mm "
	Wire:	901	Tubes and pipes, with riveted or folded edges "
	- Of high carbon steel:		Other tubes and pipes:
913	- - In coils 677.02	905	- Of a wall thickness of more than 1.8 mm "
919	- - Other "	909	- Other "
